(3) Peak Energy Savers installed to fully outfit the park.

Gordon & Jennifer's Story...

"We opened our park in 2017 in the beautiful Texas Hill Country. We enjoy letting our guests know we care about the environment. One of the places we advertise is Booking.com where we are credited as a **"Travel Sustainable Verification"** property. We currently provide reusable cups, have LED lighting, recycle rain water to water our grass and provide biodegradable laundry sheets for detergent.

We heard about recycling electricity at the TACO Trade Show earlier this year. After seeing the demo and learning from other campground owners their success stories of savings money while recycling electricity, **we knew we had to get Peak Energy Savers for our park. We estimate savings about \$2300 a year with Peak Energy Savers.**

We are so happy to have this new way to save money and the environment. **Booking.com has requested our Certified Electricity Recycler certificate from Peak Energy Technology so we can document recycling electricity as one of the many ways our park is a travel sustainable park."**

- Gordon & Jennifer Cook / Owners

More Benefits

90 day money back **guarantee**

With a **quick pay-back**, enjoy a great ROI and reduced net operating costs.

Peak Energy Savers can also help **reduce voltage sags** that can damage sensitive electronics.

Motors run 10% cooler which can **increase** the lifetime of the motor.

PEAK ENERGY SAVER

The **Peak Energy Saver** recycles electricity in your home or small business. By installing it near your circuit breaker panel with it's own dedicated breaker, the Peak Energy Saver works with everything in your home or business.

- Recycle the electricity used in your electric appliances, motors, & transformers (non-resistant loads)
- Get a quick return on your investment
- 90 day money back guarantee
- Help the environment by conserving electricity without sacrificing comfort
- Suppress surges that can cause damage to electronics
- Reduce voltage spikes
- Motors run 10% cooler which can increase their lifetime
- 5 year manufacturer's warranty
- UL listed for safety
- Easy to install

The Peak Energy Saver™ for Business Applications

The Peak Energy Saver from Peak Energy Technology LLC reduces the amount of power bought from the electric utility by storing electricity otherwise lost from the motors and transformers. The unit sends back this stored electricity back to your appliances, decreasing the kWh. Lower kWh = lower electric bills!

- Save between 10%-25% of monthly kWh usage. Most customers see a 15-22% savings.
- Peak demand charges are reduced by lowering the current needed to start each motors.
- Power factor charges are reduced, if not eliminated.

Special Note: Special consideration must be given whenever there is a power generator present. Contact your sales representative or technical support to discuss your specific situation.

**Help the environment;
Get listed on RecycleElectricity.Net**

Money isn't all that you are saving when you use Peak Energy Technology LLC products. It's an energy-wise purchasing decision that will help your business meet it's goals for 'going green.' There are units to fit your business requirements from single phase to three phase and from 240 volts to 600 volts. Once your savings is verified through detailed analysis, your business will be listed as a **Certified Electricity Recycler** on "Who's Who."

Every 1000 kWh saved is the same as planting 16 trees.
