\$4,000  
Savings  
Annually**

**Manning says...**

“At first, I was not sure I was saving money because my business was growing so fast that it was challenging to measure the savings. The folks at Peak Energy Technology continued to stay in touch and encouraged me complete a short run test and send them the results.

I received a detailed analysis which clearly demonstrated how I was **recycling 14% of the unused electricity** that I purchased from the electric company. I was very excited!

Great customer service is a rare thing to find nowadays, but I can tell you that Peak Energy Technology and Peak Energy Savers are true to their word. My Peak Energy Saver paid for itself in 8 weeks. It was a great business decision.”

**The Peak Energy Saver™ for Business Applications.**

The Peak Energy Saver from Peak Energy Technology LLC reduces the amount of power bought from the electric utility by storing electricity otherwise lost from the motors and transformers. The unit sends back this stored electricity back to your appliances, decreasing the kWh. Lower kWh = lower electric bills!

- Save between 10%-25% of monthly kWh usage. Most customers see a 15-22% savings.
- Peak demand charges are reduced by lowering the current needed to start each motors.
- Power factor charges are reduced, if not eliminated.

**Help the environment...**

Money isn't all that you are saving when you use Peak Energy Technology LLC products. It's an energy-wise purchasing decision that will help your business meet it's goals for **'going green.'**

Peak Energy Technology LLC has units to fit your business requirements from single phase to three phase and from 240 volts to 600 volts along with the expertise to evaluate the best system for your needs.

Every 1000 kWh saved is the same as planting 16 trees.

**Peak Energy Savers**  
Increase Power from  
Solar & Wind Generation

**Special Note:** Special consideration must be given whenever there is a power generator present. Contact your sales representative or technical support to discuss your specific situation.

**About Peak Energy Technology LLC**

Peak Energy Technology helps RV Parks, cities, hotels, restaurants, small businesses, and homeowners to recycle electricity and save money by reducing the amount of electricity they purchase. With a money back guarantee, this technology is now cost effective for everyone. See demo on our website.
