Certified Electricity Recycler

"This has been a great investment for us."

Savings Solution

Cheryl says...

Peak Energy Savers

Installed:

- ◆ RV Sites
- ◆ Office
- ◆ Clubhouse
- ◆ Pool
- ◆ Laundry

(6) Peak Energy Saver 200G installed

"Eventually I'll have my entire park on master meters and I will have Peak Energy Savers installed on each master meter."

"We've installed 6 Peak Energy Savers on our master meters in our park. The savings are well worth the cost of our Peak Energy Savers. Some sites are not master metered so they do not see any savings.

Sometimes we will have a guest relocate from a site that has the Peak Energy Saver to another site that does not and we've been accused of charging more money for their electric. So we have to explain why. ***Not only are we seeing the savings on our electric bill, but our guests are noticing it too.***

William and Carol Weideman have been wonderful to work with. William worked closely with my master electrician to figure out the installation on some of our more unique master meter setups. Carol has been awesome in helping us gather the data to analyze and show how we are saving money and energy."
