Peak Energy  
Savers

Payback  
in 2 Months

## Ridge Manor Campground & Mobile Home Park

### Certified Electricity Recycler

### Brad says...

#### RV Park Summary:

- ◆ 77 RV Sites
- ◆ Laundry
- ◆ Game Room
- ◆ Computers
- ◆ Lights
- ◆ Waste Water
- ◆ Water Well

-----  
*Installed 4 Peak Energy Savers  
to fully outfit RV park.*

"Peak Energy Savers are super easy to install. I installed my first Peak Energy Saver in the off-season on a meter that powers 45 RV sites, washers, a computer, and lights and noticed a savings right away. As a result, we outfitted the entire park in preparation for peak season and have continued to enjoy the decreased energy use.

After eight months with four Peak Energy Savers installed, our park saved money on our electric bill even with more campers using electricity. This amounted to **more than 10% in savings over this period with an additional 15% campers.** With the increase in camper nights, my bill would have increased; instead a **22% savings was realized** because of the Peak Energy Savers.

With all the savings I've seen in the business, I've installed one in **my own house too.** I recommend Peak Energy Savers to any campground owner who is interested in recapturing electric bill expenses and using that money in other areas of their park."

### More Benefits

90 day money back **guarantee**

With a **quick pay-back**, enjoy a great ROI and reduced net operating costs.

Peak Energy Savers can also help **reduce voltage sags** that can damage sensitive electronics.

Motors run 10% cooler which can **increase** the lifetime of the motor.

The **Peak Energy Saver** recycles electricity in your home or small business. By installing it near your circuit breaker panel with it's own dedicated breaker, the Peak Energy Saver works with everything (non-resistant loads) in your home or business.

- Recycle the electricity used in your electric appliances, motors, & transformers
- Get a quick return on your investment
- 90 day money back guarantee
- Help the environment by conserving electricity without sacrificing comfort
- Suppress surges that can cause damage to electronics
- Reduce voltage spikes
- Motors run 10% cooler which can increase their lifetime
- 5 year manufacturer's warranty
- UL listed for safety
- Easy to install

### The **Peak Energy Saver**™ for Business Applications.

The Peak Energy Saver from Peak Energy Technology LLC reduces the amount of power bought from the electric utility by storing electricity otherwise lost from the motors and transformers. The unit sends back this stored electricity back to your appliances, decreasing the kWh. Lower kWh = lower electric bills!

- Save between 10%-25% of monthly kWh usage. Most customers see a 15-22% savings.
- Peak demand charges are reduced by lowering the current needed to start each motors.
- Power factor charges are reduced, if not eliminated.

## Help the environment; Get listed on [RecycleElectricity.Net](http://RecycleElectricity.Net)

Money isn't all that you are saving when you use Peak Energy Technology LLC products. It's an energy-wise purchasing decision that will help your business meet it's goals for 'going green.' There are units to fit your business requirements from single phase to three phase and from 240 volts to 600 volts. Once your savings is verified through detailed analysis, your business can qualify for the Certified Electricity Recycler Program.

Every 1000 kWh saved is the same as planting 16 trees.

**Peak Energy Savers**  
Increase Power from  
Solar & Wind Generation

**Special Note:** Special consideration must be given whenever there is a power generator present. Contact your sales representative or technical support to discuss your specific situation.

### About Peak Energy Technology LLC

Peak Energy Technology helps RV Parks, cities, hotels, restaurants, small businesses, and homeowners to recycle electricity and save money by reducing the amount of electricity they purchase. With a money back guarantee, this technology is now cost effective for everyone. See demo on our website.
