

# The Vineyards Campground & Cabins

Grapevine, TX  
*On Lake Grapevine*

Saves with a Peak Energy Saver from

## Saves 20% Recycling Electricity

### Goal

Reduce Operating Cost for the Front Office & Gate, Irrigation Pump, and 2 Attendant RV Sites

*-Solution-*

Single Phase Peak Energy Saver

### Joe says:

"Glad we tried it out! Carol was extremely helpful and knowledgeable about what the Energy Saver could do for us. She answered our questions and the energy savings analysis of our park was very accurate.

Now that we have had it in for a year, the first Peak Energy Saver is tried and true. The payback was quicker than we expected. Our first Peak Energy Saver paid for itself in 5 months! Purchasing more Peak Energy Saver's for our campground was a no-brainer. I can easily recommend Peak Energy Saver's to other campground owners."

*- Joe Moore, General Manager*

### Savings

- ◆ 20% Savings
- ◆ \$600 Minimum Savings
- ◆ Payback in 5 months

*Comparison Months Feb—Sept*

*93 RV Sites, 13 Park Models, Camp Store, Golf Carts, Laundry, & Showers*

### More Peak Energy Saver Benefits

90 day money back **guarantee**

With a **quick payback**, your campground enjoys a great ROI and reduced net operating costs.

Peak Energy Saver's can also help **reduce voltage sags** that can damage sensitive electronics.

Motors run 10% cooler which can **increase** the life-time of the motor.

The **Peak Energy Saver** recycles electricity in your home or small business. By installing it near your circuit breaker panel with it's own dedicated breaker, the Peak Energy Saver works with everything (non-resistant loads) in your home or business.

- Recycle the electricity used in your electric appliances, motors, & transformers
- Get a quick return on your investment
- 90 day money back guarantee
- Help the environment by conserving electricity without sacrificing comfort
- Suppress surges that can cause damage to electronics
- Reduce voltage spikes
- Motors run 10% cooler which can increase their lifetime
- 5 year manufacturer's warranty
- UL listed for safety
- Easy to install

### The **Peak Energy Saver**™ for Business Applications.

The Peak Energy Saver from Peak Energy Technology LLC reduces the amount of power bought from the electric utility by storing electricity otherwise lost from the motors and transformers. The unit sends back this stored electricity back to your appliances, decreasing the kWh. Lower kWh = lower electric bills!

- Save between 10%-25% of monthly kWh usage. Most customers see a 15-22% savings.
- Peak demand charges are reduced by lowering the current needed to start each motors.
- Power factor charges are reduced, if not eliminated.

### Help the environment...

Money isn't all that you are saving when you use Peak Energy Technology LLC products. It's an energy-wise purchasing decision that will help your business meet it's goals for **'going green.'**

Peak Energy Technology LLC has units to fit your business requirements from single phase to three phase and from 240 volts to 600 volts along with the expertise to evaluate the best system for your needs.

Every 1000 kWh  
saved is the same as  
planting 16 trees.

**Peak Energy Savers**  
Increase Power from  
Solar & Wind Generation

**Special Note:** Special consideration must be given whenever there is a power generator present. Contact your sales representative or technical support to discuss your specific situation.

### About Peak Energy Technology LLC

Peak Energy Technology helps RV Parks, cities, hotels, restaurants, small businesses, and homeowners to recycle electricity and save money by reducing the amount of electricity they purchase. With a money back guarantee, this technology is now cost effective for everyone. See demo on our website.
