

Recycles 13% of Electricity

Tilleda, WI

with
**Peak Energy
Savers**

Certified Electricity Recycler

"We are always interested in finding ways to go greener and lower our carbon footprint."

Installation

Paul & Rachel's Story...

Peak Energy Saver installed to recycle electricity on meter:

- ◆ Bar
- ◆ Store
- ◆ Lakehouse Rental
- ◆ 5 Campsites Sites;
(4) 50 amp & (1) 30 amp

(1) Peak Energy Saver installed initially; adding more to fully outfit their campground and home.

"We heard about Peak Energy Technology at the WACO Convention and were impressed with their demonstration.

We are always interested in finding ways to go greener and lower our carbon footprint.

We installed a Peak Energy Saver to our Bar/Store, Lakehouse rental and 5 campsites and are very pleased that we saved 13% over the summer.

We will be adding a Peak Energy Saver to our home and the rest of our campground this year."

Paul and Rachel Janda—Owners

More Benefits

90 day money back **guarantee**

With a **quick pay-back**, enjoy a great ROI and reduced net operating costs.

Peak Energy Savers can also help **reduce voltage sags** that can damage sensitive electronics.

Motors run 10% cooler which can **increase** the lifetime of the motor.
