Jim Button says...

Peak Energy Savers Installed:

- ◆ 147 Daily RV Sites
- ◆ Office & Camp Store
- ◆ Cabins
- ◆ Pavilion & Game Room
- ◆ Aquatic Facility
- ◆ Restaurant

Note: (9) Peak Energy Saver 200G installed in RV park with more planned; Saved an average of \$4k in Peak Season

Park Profile:

Office, camp store, restaurant, 482 RV sites, 21 cabins, (4) bathhouses, laundry room, (3) pools with a water slide, swim up bar and a 3000 sf splash pad.

“We heard about Peak Energy Technology at the ARVC Convention and now have 10 Peak Energy Savers in the park and our home. The power company noticed my electric usage dropping. They came out and saw my Peak Energy Savers installed, made up a lame excuse for their visit and ask me to turn them off. I was not buying their cockamamie story. The savings have been well worth it!

We recently won the **National Green Park of the Year** award with ARVC and are proud of our efforts. Peak Energy Savers have helped us with our Green effort. The money we save on our electric bills can be put back into the resort.”

- Jim Button, OHE, CPO, & Campground Owner

More Benefits of Peak Energy Savers

90 day money back **guarantee**

With a **quick payback**, enjoy a great ROI and reduced net operating costs.

Peak Energy Savers can also help **reduce voltage surges** that can damage sensitive electronics.

Motors run 10% cooler which can **increase** the lifetime of motors.

PEAK ENERGY SAVER

The **Peak Energy Saver** recycles electricity in your home or small business. By installing it near your circuit breaker panel with its own dedicated breaker, the Peak Energy Saver works with everything in your home or business.

- Recycle the electricity used in your electric appliances, motors, & transformers (non-resistive loads)
- Get a quick return on your investment
- 90 day money back guarantee
- Help the environment by conserving electricity without sacrificing comfort
- Suppress surges that can cause damage to electronics
- Reduce voltage spikes
- Motors run 10% cooler which can increase their lifetime
- 5 year manufacturer's warranty
- UL listed for safety
- Easy to install

SUPER EASY TO INSTALL!

(One green wire connects to the neutral in the breaker box.)

(Two red wires from the Peak Energy Saver connect to the dedicated breaker installed in the main breaker box.)

MADE IN USA

The Peak Energy Saver™

for Business Applications

The Peak Energy Saver from Peak Energy Technology LLC reduces the amount of power bought from the electric utility by storing electricity otherwise lost from the motors and transformers. The unit sends back this stored electricity back to your appliances, decreasing the kWh. Lower kWh = lower electric bills!

- Save between 10%-25% of monthly kWh usage. Most customers see a 15-22% savings.
- Peak demand charges are reduced by lowering the current needed to start each motors.
- Power factor charges are reduced, if not eliminated.

Special Note: Special consideration must be given whenever there is a power generator present. Contact your sales representative or technical support to discuss your specific situation.

**Help the environment;
Get listed on RecycleElectricity.Net**

Money isn't all that you are saving when you use Peak Energy Technology LLC products. It's an energy-wise purchasing decision that will help your business meet its goals for **'going green.'** There are units to fit your business requirements from single phase to three phase and from 240 volts to 600 volts. Once your savings is verified through detailed analysis, your business will be listed as a **Certified Electricity Recycler** on *"Who's Who."*

Every 1000 kWh saved is the same as planting 16 trees.
